ELISA Development Kits

“Ready To Use”

Leinco Technologies' early discovery research product offering includes ELISA kits for the detection of hormones, growth factors, cytokines, receptors and other related molecules. Kits are sold ready to use or as flexible, easy to use ELISA development kits that contain the essential reagents including capture antibody, biotinylated detection antibody, UltraAvidin™-HRPO conjugate and calibrators for generation of a standard curve.

Our ELISA development kits are easy to use and provide highly sensitive, reliable results.

When performance and results are critical, researchers turn to Leinco Technologies for their key research tools.

- **FLEXIBILITY** Use with cell culture supernatant or serum samples. Customize the assay to meet your specific needs.
- **CONSISTENCY** Calibrated standards provide consistent results.
- **ECONOMICAL** Compared with separately purchasing antibodies and calibrators.

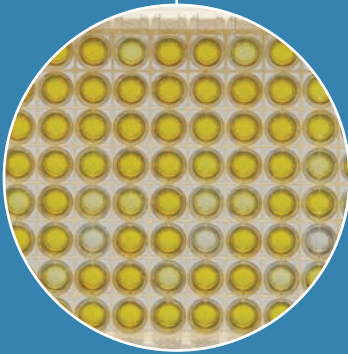

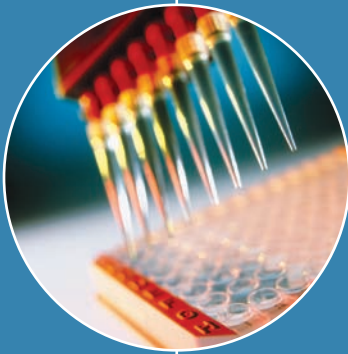

PRODUCT NUMBER	ELISA DEVELOPMENT KITS FOR GROWTH FACTORS, CYTOKINES & RELATED PROTEINS
B619	Human BD-1 ELISA Development Kit
B428	Human BD-2 ELISA Development Kit
C1587	Human CTGF ELISA Development Kit
F167	Human FGF-Basic ELISA Development Kit
I-815	Human IL-3 ELISA Development Kit
I-287	Human IL-4 ELISA Development Kit
I-827	Human IL-8 ELISA Development Kit
I-293	Human IL-12 ELISA Development Kit
I-406	Human IL-17 ELISA Development Kit
I-295	Human IL-20 ELISA Development Kit
I-832	Human IL-21 ELISA Development Kit
M1109	Human MCP-1 ELISA Development Kit
M1118	Human MIP-1 α ELISA Development Kit
P134	Human PDGF-BB ELISA Development Kit
T200	Human TNF- α ELISA Development Kit
V107	Human VEGF ELISA Development Kit
N146	Human β -NGF ELISA Development Kit
I-286	Mouse IL-3 ELISA Development Kit
I-292	Mouse IL-10 ELISA Development Kit
I-403	Mouse IL-13 ELISA Development Kit
J104	Mouse MCP-1 ELISA Development Kit
M1119	Mouse MIP-1 α ELISA Development Kit
M1325	Mouse MIP-1 β ELISA Development Kit
R1272	Mouse RANTES ELISA Development Kit
S500	Mouse SCF ELISA Development Kit
V167	Mouse VEGF ELISA Development Kit
I-387	Rat IL-1 β ELISA Development Kit
I-390	Rat IL-6 ELISA Development Kit

PRODUCT NUMBER	ELISA KITS FOR HORMONES
T176	Alpha-1-Fetoprotein (AFP) MICRO-ELISA Test Kit
T178	Ferritin MICRO-ELISA Test Kit
T183	Free T3 (Triiodothyronine) MICRO-ELISA Test Kit
T182	Free T4 (Thyroxine) MICRO-ELISA Test Kit
T108	Human Chorionic Gonadotropin-Beta (HCG) MICRO-ELISA Test Kit
T109	Human Follicle Stimulating Hormone MICRO-ELISA Test Kit
T175	Human Growth Hormone MICRO-ELISA Test Kit
T177	Human IgE MICRO-ELISA Test Kit
T110	Human Luteinizing Hormone (LH) MICRO-ELISA Test Kit
T115	Human Placental Lactogen (HPL) MICRO-ELISA Test Kit
T111	Human Prolactin MICRO-ELISA Test Kit
T112	Human Thyroid Stimulating Hormone MICRO-ELISA Test Kit
T179	Human Prostate Specific Antigen (PSA) MICRO-ELISA Test Kit
T181	Total T3 (Triiodothyronine) MICRO-ELISA Test Kit
T180	Total T4 (Thyroxine) MICRO-ELISA Test Kit
