

Thyroxin (T4) Antibody

Purified No Carrier Protein

Monoclonal Antibody

Product Information

Product No.: T106

Clone: 157

RRID: AB_2737565

Isotype: Mouse IgG

Storage: Sterile 2 to 8°C

Product Description

Specificity:

Mouse Anti- Thyroxin (T4) (Clone 157) recognizes Thyroxin. This monoclonal antibody was purified using multi-step affinity chromatography methods such as Protein A or G depending on the species and isotype.

Known Reactivity Species:

Human

Format:

Purified No Carrier Protein

Immunogen:

Purified Recombinant T4 (>98%)

Formulation

This purified antibody is supplied in 0.05 M phosphate buffered saline (PBS), pH 7.4, containing 0.1% sodium azide.

Storage and Stability

This Purified Antibody is stable when stored at 2 to 8°C. **Do not freeze.**

Country of Origin

USA
