

Anti-Rhesus Monkey IgG

Monoclonal Antibody

Product Information

Product No.: 14801
Clone: 5C12.D4
Isotype: Mouse IgG1
Storage: -20° to -70°C

Product Description

Specificity:

Mouse Monoclonal Antibody specific to Monkey Immunoglobulin

Background:

Leinco Technologies offers premium Anti-Monkey secondary antibodies, meticulously designed for researchers working with non-human primate (NHP) models. These affinity-purified monoclonal and secondary antibodies boast exceptional specificity for non-human primate immunoglobulins (e.g., monkey IgG, IgA, IgM), ensuring precise and reliable results in your assays.

Known Reactivity Species:

Monkey

Format:

Purified

Immunogen:

Chromatographically purified Rhesus monkey IgG

Formulation

This monoclonal antibody is formulated in phosphate buffered saline (PBS) pH 7.2 - 7.4 with no carrier protein or preservatives added.

Storage and Stability

This antibody is stable for at least one (1) year at -20°C to -70°C.

Store product in appropriate aliquots to avoid multiple freeze-thaw cycles

Product Preparation

Antibodies are purified by a multi-step process including the use of protein A or G to assure extremely low levels of endotoxins, leachable protein A or aggregates.

Applications

Applications and Recommended Usage (Quality Tested By Leinco):

These antibodies may be used in ELISA to detect and quantitate Rhesus monkey IgG.

Country of Origin

USA
