

# **Myelin Basic Protein Antibody**

# **Monoclonal Antibody**

#### **Product Information**

Product No.: 24201 Clone: MBP101

**Isotype:** Mouse IgG2b **Storage:** -20° to -70°C

# **Product Description**

## Specificity:

This antibody reacts with residues 130-136 in human myelin basic protein (21.5kDa and 18.5kDa molecular forms). It also recognizes primate, rabbit, sheep, goat, rat, and mouse myelin basic protein.

## **Known Reactivity Species:**

Goat, Human, Mouse, Primate, Rabbit, Rat, Sheep

#### Format:

Purified

#### Immunogen:

Purified human myelin basic protein.

#### **Formulation**

PBS, pH 7.4.

## Storage and Stability

This antibody is stable for at least one (1) year at -20°C to -70°C.

Avoid multiple freeze-thaw cycles.

## **Product Preparation**

Purified by Protein G affinity chromatography

#### **Applications**

### Applications and Recommended Usage (Quality Tested By Leinco):

This antibody may be used in ELISA, immunohistochemistry, and Western blot procedures for detection and/or quantitation of myelin basic protein.ELISA: Human myelin basic protein coated on ELISA wells at 5ug/ml; binding detected with HRP-conjugated goat anti-mouse IgG + ABTS substrate.

### **Country of Origin**

**USA**
